

LA400 WIPE

Automatic Label Applicator

Fully automatic label applicator for accurate in-line application of pre-printed labels on a wide range of products.

Equipment manufactured in Holland by VWS Nederland.

Integrated electronic control.

Production speed, depending on label size and characteristics, up to 600 labels per minute.

Large label reel capacity with an outside diameter up to 300mm keeps label changeovers to a minimum.

Technical Specification LA400 WIPE

Photo-electric product sensor (24v) to trigger labelling

Label dimensions: Min W 10mm x L 10mm

Max: W 120mm x L 300mm

Label roll diameter: max 300mm

Label core diameter: 76mm

Stepper Motor drive

Intelligent electronics integrated to labeller

Adjustable label web speed up to 50m/min

Available in Right to Left, or Left to Right handings

Power 230v, 50HZ a.c.

Options

- Mounting tube kit to allow fitting to an existing frame or machine.
- Height and transverse screw spindle adjustments.
- Stand options—fixed location or mobile on wheels.
- Integration with conveyors for top and / or base labelling.
- Encoder connection for automatic speed synchronisation.
- I/O outputs for alarm signal (end of label roll, error messages)
- USB connection to PC for configuration.
